# SCULPTURES

COLLECTION

**Skyline Sculptures** are hand crafted by artisan craftsmen from solid blocks of grey sandstone.

Each piece is hand carved and unique, each one will have a slightly different look.

Each piece of sandstone will be different from the next piece and have different grain and texture, colour shades will vary, adding to the unique look and feel of each piece.

Natural rock will have imperfections in some pieces, this is a natural occurrence and part of the beauty of the sculpture.

## SOLA LIGHTING

**La Lampe** by **Maiori Design** is an inspiring autonomous, state of the art collection of solar powered lamps, that promise to light up your nights wherever you are.

La Lampe draws inspiration from the historical streets of Paris. Back in 1677, to the lights of the “Reverbere” gas lamps, people flowed on to the streets, earning it the nickname ‘city of light’.

Today, La Lampe collection brings light to wherever it is needed.

Thanks to it’s wireless solar power, La Lampe shines where most lamps can’t.

**Sunbrella Outdoor Fabrics:** are as versatile indoors as outdoors. They are woven exclusively with solution-dyed acrylic fibres to guarantee UK colour fastness and finished with a protective anti-stain coating. Attractive, easy to wash, durable and long lasting.

During the manufacturing process, top quality dyes are added to the fibres to result in the colour going all the way in to the core, so it's original colour and vibrancy last on and on.

Engineered to resist mould and mildew and with a 5 year warranty against fading and deterioration.

Incredibly easy to maintain, Sunbrella fabrics repels liquids and dirt, making extremely easy to keep clean year after year.

Easy day-to-day maintenance of your Skyline design cushions.

Brush off loose dirt

Spray on cleaning solution of water and mild soap.

Use soft bristle brush to clean.

Rinse thoroughly and allow to air dry.

## MAINTENANCE & CARE

### FURNITURE MAINTENANCE

**Weaving:** with polyethylene fibres made to meet outstanding specifications for all weather outdoor furniture. Virtually maintenance free properties for carefree living. UV resistant, weather proof and temperature resistant, colourfast, strong and long lasting, environmentally friendly and 100% recyclable.

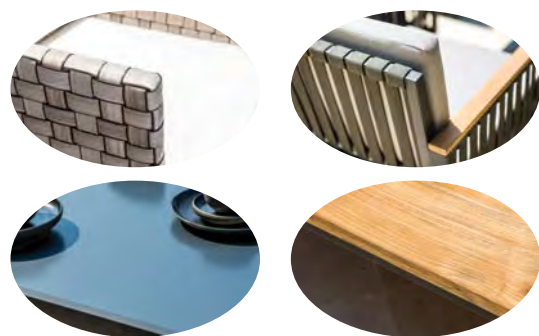

**Easy care:** For light cleaning, just rinse with clean water to remove dust.

For deep cleaning, clean water, a mild soap solution and a medium bristle brush will remove all dirt, rinse with clean water. Use can also use a power wash if needed.

**Poly Straps & Rope:** Clean with clean water and soap solution with a soft cloth or soft bristle brush, be careful not to cause fraying. Poly straps and rope can be power washed for effective deep cleaning.

**Aluminium:** Near perfect material for outdoor furniture, it is lightweight, durable and does not rust. Skyline only use the best Aluminium, powder coated to ensure a surface resistant to knocks and scratching. Easy care, we recommend washing down with warm soapy water and a soft cloth. Do not use abrasive cleaner or application to avoid scratching.

**Teak:** An excellent outdoor timber and perfect for outdoor furnishing. Resistant to decay due to natural oils and strong nature, repels water, resists warping and shrinkage. In order to maintain your Teak, we recommend cleaning with clean water and PH neutral soap. Over time your Teak will fade to a silvery grey colour. To bring back to its rich original colour, we recommend the application of a Teak oil to the surface to renew its rich colour and texture.

### PROTECTION COVERS

**Protection covers:** Made to make your life easier, protection covers protect your furniture from the elements and keeps your outdoor furniture clean and fresh when and ready for use. Protection covers will reduce you need to clean your furniture and keeping everything dry.

Skyline design protection covers are tailored to each design, so are a comfortable fit and very easy to apply and remove. They are 100% water proof, using our seam welding production process means no water can seep through, even through the seems.

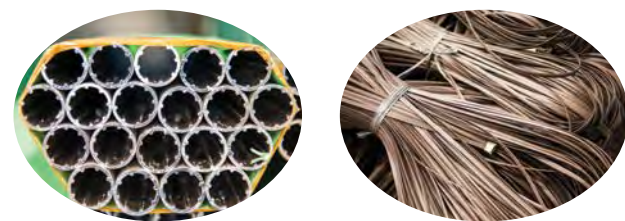

Great for long periods of storage, your furniture will be as clean and fresh as the day you covered them. We do not recommend cushions are stored over winter in damp/wet climates under the covers as moisture can accumulate causing mould and mildew on you cushions.

### WATER PROOF LINERS

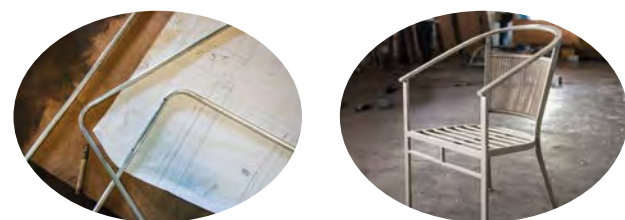

**Water proof liners:** Helps to keeps your cushion foams from saturation even in the heaviest of prolonged rain. Invisible to the eye, they fit between your chosen cushion fabric and the foam filling. If water penetrates your cushion covers, it cannot then pass through the water proof liner, giving the benefit of quicker drying after heavy rain.

**Skyline Design team worldwide** would like to say a special thanks to all the people involved in the making and production of this brochure on the beautiful island of Bali, Indonesia. The villa managers and staff who looked after us so well. Our workers who tirelessly laboured all the heavy work. Photographers and art direction to capture the stunning images. Our beautiful models who worked so hard on this production. Factory production who without none of this would be possible. A special thanks to Noel Asenjo who made a massive effort from start to finish in make this run as smooth as possible.
