A600 by Christophe Pillet

> **A600** by Christophe Pillet

The petite, forgiving looks of Christophe Pillet's A600 Series for Maiori is an account of design best practises and a dialogue of contrasts. Built in Aluminium 6061, a high-performance stock celebrated for its use in of aerospace industry, and fitted with panels shaped like pads, it provokes a warm response. The oven-cured powder paint used throughout provides a soft, tactile feel, plus a matt sandy texture that is urban and unfussy.

Christophe Pillet has won international acclaim for the spectrum and quality of his creations. His considered interpretations are a testament to high-voltage chic, distinguished both by its precision and rigour.

> **A600** ^{by} Christophe Pillet

Vega by Maiori Design

> **Vega**^{by} Maiori Design

The plasticity and light pose of Vega makes for an easy object to live with. Undemanding, elegant and carefree, Vega puts you at ease, so you can relax. Vega's contemporary flair and versatility makes it also a great choice for in-out dinner and café furniture.

All Vega frames and tabletops are made on recyclable aluminium and finished with a handsome layer of oven cured epoxy, the cleanest and environmentally friendly paint known. A choice of Full Aluminium, Wicker, Batyline or padded Batyline choices is available for the seat and backrest, making Vega the one most comprehensive and customizable outdoor furniture option.

Mica ^{by} Maiori Design

> **Mica** ^{by} Maiori Design

Unexpected, relaxed, irreverently suburban... Mica's modernism is an eclectic oddity and an exceptional proposal. Built with an all-aluminium body, which is skilfully bent to create a shape that transmits optimism for its simplicity and boldness, this small chair works in the kitchenette, the lounge or alfresco.

> **Mica** ^{by} Maiori Design

The Club ^{by} Maiori Design

> **The Club**^{by} Maiori Design

Puffy and easygoing, The Club is an enticing and forgiving in-out sofa that you can place anywhere, it is so light that can be carried effortlessly with a single hand. The Club is designed using the most advanced foams to remain comfortable and keep its shape for years, and it is finished with advanced textiles that are waterproof and carefree so it can be left outdoors in any weather without a worry.

Keeping up with Maiori's sustainable ethos, we use advanced packing methods to reduce The Club's volume up to 70% for transportation, reducing considerably its product carbon footprint during shipping and local delivery, a clear example of innovation at the service of a better future.

AT800 by Normal Studio

> **AT800** ^{by} Normal Studio

Thought initially as an updated version of the timeless, wooden folding chair, the AT800 series by Normal Studio are a statement in the kind of simplicity that comes only after hard design thought. Engineered so its simple at every level of the product: from production, to assembly, from transportation to disposal, the AT800 series shouts great design in every way possible.

Normal Studio's design élémentaire strive to match aesthetics and technique. For them, each object contains an elementary equation that has to be solved at the minimum of handling, material and machine investment. It is the coming together of method, tools and competence that builds their projects. Creator of the year 2010 at the Now! Maison&Objet Salon, the partnership has won many VIA labels as well as the best designer/firm collaboration prize at Designer's Days.

Greens by Maiori Design

> **Greens**^{by} Maiori Design

Big Garden in a minimum footprint. Go vertical. If you have 0.3 square meters of floor space, you have a garden, it is that simple, meet Greens, by Maiori Design. Design as a simple drip watering system, Greens allows water to flow from top to bottom, eliminating water paddles and overwatering, ideal for interior spaces.
